SOFT SKILLS

Team Management
Communication Skills
Problem Solving
Typing Speed
Project Planning & Task Management

PROFILE

I'm a passionate Full Stack Web Developer with strong command over HTML, CSS, JavaScript, React.js, Node.js, TypeScript, and both MongoDB & MySQL. I specialize in building dynamic, responsive, and SEO-optimized websites that not only look great but also perform flawlessly. With experience in UI/UX design, I ensure every user gets a seamless and engaging experience. I've also led and managed small development teams, handled complete web projects from scratch to deployment, and solved complex coding challenges with logical thinking and speed.

WORK EXPERIENCE

Self-initiated Projects | 2024 – Present

Key Projects: 🛒 E-commerce Website – React, Node.js, MySQL

Developed a full-featured eCommerce store with user authentication, product listing, cart functionality, and admin dashboard.

Backend APIs built with Express.js and connected to MySQL database.

Integrated search, category filters, and order management.

☁️ Weather App – React, OpenWeatherMap API

Built a dynamic weather app that fetches real-time data by city name.

Responsive and styled with CSS & Tailwind.

💱 Currency Converter – HTML, JS, Free API

Converts between global currencies using real-time exchange rates.

User-friendly UI with simple input interface.

🔗 URL Shortener – Node.js, MongoDB

Created a custom short link generator with copy-to-clipboard and redirect features.

Shortcodes stored in MongoDB with timestamps.

TECHNOLOGIES USED:

Frontend: HTML, CSS, JavaScript,
React.js, TypeScript

Backend: Node.js, Express.js

Databases: MySQL, MongoDB

Tools: Git, GitHub, Postman, VS Code

Others: SEO basics, UI/UX,

Deployment (Netlify, Render, cPanel)

SUMMARY

- ✓ Real-world style project experience
- ✓ Full-stack skills in React + Node + MySQL
- ✓ Practical knowledge of API integration
- ✓ Good understanding of deployment and SEO
- ✓ 5-7 working apps as portfolio proof
